

To Our Valued Customers:

First let me take the opportunity to thank you for your business and loyalty. It is because of clients like you we strive to provide state of the art equipment and give the best customer service possible.

In recent days we have been presented with a proposal to expand our ability to provide access to new equipment manufactures and increase that same great customer service you have come to expect from Southern Penn Communications. We are pleased to announce the upcoming merger with Triangle Communications, Inc. on October 1, 2018. At that time Southern Penn Communications, Inc. will begin doing business under the name of Triangle Communications, Inc. Also, as of that date we will transfer all operations to our new location at 99 15th Street in New Cumberland, PA 17070. Where you will find all the same faces, Shane Golden will remain your account manager and Dave Jacoby will continue to install and service your radios. I will be assuming the location manager position. While our old phone number will remain in service and be forwarded for a short time, please begin using our new number of 717.774.7455. Also, after this date all pending PO numbers and existing blanket PO numbers will need to be switched over to Triangle Communications, Inc. Please remit all future payments to Triangle Communications, Inc. 940 West Main Street New Holland, PA 17557. Our W-9 is attached so you may start the process of switching your account over. All Certificates of Insurance can be acquired through Lori Stump at 717.656.2211 or L.Stump@trianglesc.com.

In addition to analog/digital two-way radio, this merger gives us the ability to offer you commercial CCTV, and Access Control security system solutions. Triangle Communications, Inc. is well known throughout the area as being one of the leading companies in providing this equipment and service. If you would like more information please let us know.

In closing both the staff of Southern Penn Communications and Triangle Communications, Inc. are looking forward and committed to this opportunity to continue providing you with the **Best Sales and Service of Two-way Communications, CCTV and Access Control** in the region.

Respectfully,

Todd M. Edwards
President, Owner
Southern Penn Communications, Inc.
(717)756-1315

Respectfully,

Roy Smoker
